About me

Enthusiastic and passionate aspiring software developer with a BCom Hons in Information Management degree from the University of Johannesburg. Proficient in HTML, CSS, Bootstrap, SQL, Node.js, and JavaScript. Collaborative and detail oriented, I have successfully contributed to projects using Git and agile methodologies. Eager to leverage my academic knowledge and practical skills in an entry-level role, I am committed to delivering high-quality code and continuously enhancing my expertise. I am seeking opportunities to join a dynamic team, contribute to innovative projects, and kickstart my career in software development.

Achievements & Key Projects

- 4IR Technologies Bootcamp (8 months)
- Agile Rapid Skills Acquisition (8 months)
- Full-stack Web Development for 4IR (8 months)
- Engineering Business Systems for 4IR (8 months)
